On stock unmodified carbs I would follow the waveraider manual and keep the 95 in the center #2 - Yes a smaller jet will lean out that cylinder but think of it the opposite way - Yamaha believes the 2 outer cylinders run hotter and are more subject to detonation - therefore they put a larger jet / richer in those 2 and a smaller / normal jet in center. Official Manual of the Dealerships! This is the Official Manual that the dealers and shops use. This is the real thing, written by the manufacturer for their service technicians specifically for the vehicle(s) listed. This ensures you get the job done right the first time. This manual contains Complete Wiring Diagrams for the model(s) listed above including Schematics and Routing Diagrams.
