

# Download August 4th Week Primary Sharing Time

Free printable LDS primary thank you gift idea. 'We'd be nuts if we didn't thank you!' There is also a printable version that can be used to thank anyone. Our Primary Sharing Time lesson index is the only one of its kind anywhere online!!! Many of these sharing time ideas here are from Church-published sources (The Friend magazine), and others are from bloggers worldwide. 4th graders just finished a lesson about totem poles. Students learned about the significance of totem poles and that they were (and still are) made by native tribes who lived in the Pacific Northwest region of North America. All the songs we sing on a particular Sunday, I keep in my Singing Time Binder and rotate them out each week as needed. You can find more details on the binder [HERE](#). When not in use, I save them in my files and pull them out the next time we sing the song.
