

Download Cancer Incidence In Five Continents Iarc Scientific Publications

The International Agency for Research on Cancer (IARC) is the specialized cancer agency of the World Health Organization. The objective of the IARC is to promote international collaboration in cancer research. Welcome to the Cancer Incidence in Five Continents (CI5) Volume XI website. CI5 is published approximately every five years by the International Agency for Research on Cancer and the International Association of Cancer Registries and provides comparable high quality statistics on the incidence of cancer from cancer registries around the world. 2019 Vancouver: NAACCR / IACR Combined Annual Conference June 9-13, 2019* Registration is open - the conference is in partnership with the North American Association of Central Cancer Registries (NAACCR). As in 2014 in Ottawa, the meeting will be a week-long symposium combining the NAACCR and IACR annual conferences. The key focus of the Section of Cancer Surveillance (CSU) is the systematic and ongoing pursuit of global cancer data and statistics for cancer control action, in keeping with one of the primary aims of IARC — to describe and elucidate cancer occurrence worldwide.
