Resulting from the above discussed advantages of natural products, in spite of the predominant industrial focus on HTS approaches with synthetic compound libraries, natural products still represent a valuable source for drug discovery (Newman and Cragg, 2012). Plant-derived natural products approved for therapeutic use in the last thirty years (1984–2014) are summarized in Table 1. The similarity between most of the physical properties of coal and wood pellets means that the fundamental design of equipment and infrastructure between the two bulk material could remain the same. International Journal of Engineering Research and Applications (IJERA) is an open access online peer reviewed international journal that publishes research .. Transfer of training is of paramount concern for training researchers and practitioners. Despite research efforts, there is a growing concern over the “transfer problem.”
