Positions held: Retired as Chief Scientist. Academic and Research Achievements: Brought India on to the International Map of Metabolic Engineering of Medicinal Plants particularly the antineoplastic herb *Catharanthus roseus*; Playing active role in drafting the National Policy Document of Indian Medicinal Plants of Ministry of AYUSH. We report a comprehensive analysis of 412 muscle-invasive bladder cancers characterized by multiple TCGA analytical platforms. Fifty-eight genes were significantly mutated, and the overall mutational load was associated with APOBEC-signature mutagenesis. Titration, also known as titrimetry, is a common laboratory method of quantitative chemical analysis that is used to determine the concentration of an identified analyte. Since volume measurements play a key role in titration, it is also known as volumetric analysis. A reagent, called the titrant or titrator is prepared as a standard solution. A known concentration and volume of titrant reacts ... Paper presentations are the heart of a PharmaSUG conference. PharmaSUG 2019 will feature over 200 paper presentations, posters, and hands-on workshops.
