## Mooring

Delmar Systems is a worldwide supplier of offshore mooring-related services including engineering design, mooring analysis, project management, planning and procedures, operational installation, and mooring equipment rentals. RAR Plus™ – Next Generation Mooring Release Technology. All of the standard RAR 6500 model features, plus: Increased Minimum Break Load (MBL) for increased robustness. Geotechnical engineering is the branch of civil engineering concerned with the engineering behavior of earth materials. Geotechnical engineering is important in civil engineering, but also has applications in military, mining, petroleum and other engineering disciplines that are concerned with construction occurring on the surface or within the ground. 2 Orkot® Marine Bearings Engineering Manual for Rudder and Water Lubricated Propeller Shaft Bearings About this Manual The information in this manual allows the user to
