The Designers' Guides to Eurocodes series provides comprehensive guidance in the form of design aids, indications for the most convenient design procedures and extensive worked examples. The books within the series also include background information to aid the designer in understanding the reasoning behind and...Designers' Guide to EN 1992-2 Eurocode 2: Design of concrete structures This guide describes the principles and requirements for safety, serviceability and durability of concrete bridges. It provides the user with guidance on the interpretation and use of EN 1992-2 and the relevant provisions of the general rules of EN 1992-1-1. Designers' Guide to Eurocodes Designers' Guide to Eurocode 2: Design of Concrete Structures Eurocode 2, Design of Concrete Structures, will apply to the design of building and civil engineering structures in plain, reinforced and pre-stressed concrete. It provides the user with guidance on the interpretation and use of EN 1992-2 and the relevant provisions of the general rules of EN 1992-1-1. Worked examples are provided to illustrate the use of the rules. It also explains the relationship with the other Eurocode parts to which it refers (ENs 1990, 1991).
