

Download Infrastructure Of Americas Bridges

Americas Infrastructure

About the Report. Every four years, the American Society of Civil Engineers' Report Card for America's Infrastructure depicts the condition and performance of American infrastructure in the familiar form of a school report card—assigning letter grades based on the physical condition and needed investments for improvement. Investments in bridges were bolstered in 2009 and 2010 with the influx of additional funding from the American Recovery and Reinvestment Act and peaked in 2010 with \$18 billion spent. Despite the recent increases in spending, investments in the country's bridges are insufficient. Falling apart: America's neglected infrastructure. Steve Kroft reports on why our roads, bridges, airports and rail are outdated and need to be fixed. In fact, the American Society of Civil Engineers (ASCE) gave the US a D grade for its roads and a C grade for its bridges in its latest report on the state of American infrastructure. What's more ...
