A case study of overwhelming illness and stress. During a period of 7 1/2 years, one family encountered life-threatening illness, psychiatric disability, juvenile delinquency, and multiple episodes of trauma, infection, and surgery. Cancer developed in three of the seven children, the mother had five suicide attempts,...A medical crisis is more than just a problem with your body. It also affects your mental health, your family relationships, your finances, and, on a basic level, what you do from day to day. Even though these things are offshoots of the medical problem, they shouldn't be ignored. They can all be managed, with the help of others.How Life Events can Lead to Family Crisis. Tom has the stress of a new family, a new special needs baby, poor financial standing, living situation, and pressure from his job. When all of this is added together, it is enough to cause any family unit to falter. If he doesn't deal with these separate crises, his family unit (he, his wife, his baby,...
