

Download Obstetric Medicine A Problem Based Approach

BackgroundThe prevalence of facility-based childbirth in low-resource settings has increased dramatically during the past two decades, yet gaps in the quality of care persist and mortality remains ...Abstract: In the 1970s, studies demonstrated that timely access to risk-appropriate neonatal and obstetric care could reduce perinatal mortality. Since the publication of the Toward Improving the Outcome of Pregnancy report, more than three decades ago, the conceptual framework of regionalization of ...Postpartum hemorrhage (PPH) is the leading cause of maternal mortality. All women who carry a pregnancy beyond 20 weeks' gestation are at risk for PPH and its sequelae. Although maternal mortality rates have declined greatly in the developed world, PPH remains a leading cause of maternal mortality ...Two highly competitive fellowship positions for our 12-month Pain Fellowship Program are offered. Varied training backgrounds and the diversity they bring to pain management are recognized and valued.
