Alert: Due to routine maintenance on the OSHA website, some pages are temporarily unavailable. To report an emergency, file a complaint with OSHA or ask a safety and health question, call 1-800-321-6742 (OSHA). The oil and gas industry continues to expand in all areas of the world and the need for safety professionals has never been greater. Identifying and controlling onshore and offshore oil platform hazards, reducing fatalities, injuries and illnesses, and designing effective OSH management systems specific to the oil and gas industry are essential skills to the success of organizations. Click on the arrows – this will show/hide categories (orange text). Click on the text – will take you directly to the category or document (blue text). Click on the titles to see a preview of each document. This introductory financial accounting course is designed for transfer students in business, information systems, and/or accounting. Students will study topics which include the accounting cycle, preparation and analysis of financial statements, internal control, depreciation, inventories, receivables, liabilities, stockholders' equity, ethical issues, and accounting as a decision-making tool.
