

Download Toyota Ln166 Service Manual

NEW TO FORUM-hilux suspension, body and tyres. Hey guys I'm new to this forum and this is my first post! I'm finding it really hard to search for exactly what I'm looking for, so I thought I would start a new one so please either be nice or point me in the right direction. Speak of the devil, I just had mine done. It is a V6 though. Mine cost me \$1140 drive in out. But that was for a full 150,000km service too. I would of been 40 dollars short of 1k, but the belt tensioner was leaking, so I had to get this replaced.
